

Shield+ Paint Protection Film

Size of roll	1.52m x 15m
Coating brightness	40%
Adhesive	25 μ m
Elongation	\geq 300%
Type	Gloss
Function	Self healing
Coating + TPU + Glue Thickness	10mil \pm 0.3
Coating thickness	10 μ m

Solvent Resistance	No change
Gravel Test	No change
Thermal Test 40c ~ 80c	No change
Tensile Strength	37mpa
Peel force 24hr	1400g/inch
Warranty	10 years

Storage conditions

Temperature 10–36°C, relative humidity 40%–70%, avoid direct sunlight, store in a well-ventilated space.

Avoid extreme temperature ranges in store. Store the product in its original packaging in a horizontal orientation, away from direct sunlight. Do not place heavy objects on top of the packaging as this may damage the product.

Test environment: temperature 23°C \pm 2°C. Temperature 55% \pm 5%.
